

ASSASSIN ROLE ASSIGNMENT

BY ERAM MANASIA

WHAT DATA STRUCTURES WERE USED?

- `ArrayList` => list of names
- `HashMap` => Role assignment
- `HashSet` => check for duplicates

WHAT WERE THE CHALLENGES FACED AND WHAT DID YOU LEARN?

- Figuring out how to send data from one screen to another
- Rules of how many murderers and having that sent to the spinner
- Duplicate checking
- The internet is your best friend!
- The importance of wireframes
- Check what languages and tools you are using before you start -.-

WHAT ELSE WOULD YOU HAVE LIKED TO ADD TO YOUR PROJECT?

- Single hand held -> Multi hand held
 - Notification on what you are
- Log in
 - Each user can add, save, remove, and edit a “group”
- Have add,edit, and remove button for adding names
